COMENIUS

Comenius project. Sports & Sciences. Two precious components in education of young European citizens

How much money did Terrassa receive to promote sports organizations?

Why have we done this activity?

- We've done this activity because we wanted to know **how much money our city receives** to promote sports organizations.
- We have seen that the European union does not give us money directly. Then, we have done it with the grants of the town hall of our city.

- In 2014 we received a total of 109350 € to promote sport.
- Some of the entities from which subsidies are distributed are:
 - **Club Natació Terrassa:** it's an entity that takes as main objective the development and promotion of sports, especially swimming and waterpolo. *It receives 6.800€.*
 - **Club Terrassa Hockey:** it's an entity that has the objective to promote hockey. *It receives 5.500€.*

Conclusion

- According to the results, very few entities do not receive grants.
- The granted amount is less than the demanded. It happens because the town hall has to distribute all the money among all the entities.
- So, sports organizations are promoted in Terrassa.
